Parent Info

Dear Parents,

We're looking forward to an exciting week as we wrap up new lessons and head out on our field trip to the Air and Space Museum this Friday! Please remember that our test schedule will be a little different this week.

Students should wear their 10 Commandment shirts and comfortable shoes. We'll have lunch together at the pavilion, and students will have time to play on the playground afterward. Please send a sack lunch and drink for your child.

Thank you so much!
Mrs. Castro

Math

Students will build on their understanding of addition and subtraction with regrouping and continue practicing time, money, and measurement skills. We'll review fractions of a whole and talk about how to recognize and compare them in real-life examples. We will also work on story problems that combine several math skills, focusing on reading carefully and showing all steps.

Phonics

In phonics, students will review compound words, prefixes, and suffixes/ We'll also work on sentence writing and editing, helping students apply grammar and punctuation rules to their own writing.
