CLASSROOM NEWS

The students are giving their testimonies this week. I am very excited to hear how God has been working in their lives!

They have been working really hard on their Research Papers and should continue to do so! They may need to do some work at home as well!

The trip to Washington, D.C. is almost here! I am so excited! Please let me know if you have any questions. I will continue to be your communicating teacher during the trip as well.

April 30th is a big evening with a meal to help raise the rest of the funds for the trip, Open House, and the Annual Meeting at CBA. So come by the room to see the students' posters of their findings at Washington, D.C. and stay for the Annual Meeting!
